

SAFETY AT WORK

CAUTION! IN BELGIUM, THE FOLLOWING RULES ARE APPLICABLE TO A WORKPLACE AT ALL TIMES:

Apply your employer's safety measures at all times.

Stay home or leave work if sick.

Maintain at least 1,5m from others.

If this is not possible, please wear a mask. Apply these rules also in the car or in the mess. The meals can be organized at different times. Disinfect surfaces you touched. After each meal, the table must be thoroughly cleaned.

Keep your hands clean, wash them often with soap and water and wipe them with a disposable.

If soap and water are not available, use an alcohol-based hand sanitizer. Try to use disinfectant at the beginning and at the end of each activity, e.g. when you arrive at work, at the beginning and end of a break, after visiting the toilet, etc.
